

Further, the Examiner has required that Applicants provide "one specific structure with no ambiguity regarding substituents and/or positional isomers."

**ELECTION**

Applicants submit that the chemical structure shown below exemplifies the particular species elected in the Response filed on June 2, 2008:

The above chemical structure is shown in Example 82 on page 97 of the present specification.

Further, Applicants note that the pyridinyl group of HAR is not substituted with R8. Accordingly, Applicants respectfully submit that a particular species selection for R8 is not required by the elected compound.
